Dear Sir/Madam,

I would like to comment specifically on:

Medical Radiation Practice Board of Australia

English Language Skills Registration Standard -

Requirements:

(b) the applicant's tertiary qualifications in the relevant professional discipline were taught and assessed in English in one of the countries listed below, where English is the native or first language:

(i) Australia

(ii) Canada

(iii) New Zealand

(iv) Republic of Ireland

(v) South Africa

(vi) United Kingdom

(vii) United States of America.

I believe that the above countries (and/or regions) should include the **Republic of Singapore** and **Hong Kong Special Administrative Region - People's Republic of China** where English is the official or first language for its education systems.

That's my input.

Thanks and regards

C.D. Wen
