

Medical Radiation Practice Board Of Australia

Proposed Registration Standards Consultation Paper

Thank you for the opportunity to provide feedback on the proposed registration standards for Medical Radiation Practice.

NATA is generally in agreement with the proposed standards and has only the following comment for clarification purposes.

	Attachment 1. Draft registration standard Continuing professional development (CPD)	NATA comments and feedback
1.3	Whether or not a specified proportion of an individual's CPD should be dedicated to their current scope of practice.	Requirement b) refers to disciplines. NATA recommends that this be aligned with the requirements under "divisions" Attachment 6 – Grandparenting and general registration eligibility registration standard. ie <ul style="list-style-type: none">▪ Diagnostic radiography▪ Radiation therapy▪ Nuclear medicine
	Attachment 6. Draft registration standard: Grandparenting and general registration eligibility registration standard	
7.2	The amount of emphasis that should be placed on a practitioner's CPD to determine their eligibility for general registration.	As per 1.3
